SPRING "SWEEPING" SPECIALS**

### What is a "10 X 32 Flat Poly Wafer"?

- 1) 10 - Indicates the ID (inside diameter) of the ring.
- 2) 32 - Indicates the OD (outside diameter), from one end to the other end of the wafer material.\*
- 3) Poly - Indicates if the wafer is Poly, Wire or Combo.
- 4) Flat - Indicates the wafer is flat and will need spacers (instead of a convoluted, spacer-less, wafer).

### OEM's Most Common Wafer Sizes:

ID	X	OD*
10	X	32
8	X	26
7	X	24
6 3/8	X	24
6 3/8	X	21
5	X	15
